

Protect+ your hands!

Protect+ Bio Foam Hand Sanitiser is a naturally derived, alcohol and Quat free foaming hand sanitiser. Highly efficacious, environmentally friendly and kind to skin.

Manufactured using renewable and sustainable technology, the plant based ingredients are bio-renewable.

Fragrance free making it ideal for all health care and food handling environments.

Formulated with an emollient and added Aloe Vera, making the foam gentle on skin and leaving hands hydrated, in contrast to alcohol-based hand gels, which strip the skin of moisture causing dryness and cracking following prolonged use.

Features

- Virucidal and Bactericidal
- Approved to EN14476 for enveloped viruses, including Coronaviruses
- Also approved to EN1276
- Foam clings easily to hands unlike gels
- Developed using technology to minimise irritation and prevent drying ensuring hands stay soft and uncracked
- No gelling agents avoids leaving hands sticky after use
- Up to 50% more applications by volume than gels
- Non-flammable, requires no special storage
- Manufactured in the UK by Biological Preparations

Benefits

- Renewable and sustainable manufacturing technology
- Plant derived and carbon neutral
- 100% readily biodegradable
- Never tested on animals
- Post-consumer recycled bottles to eliminate plastic pollution
- Cardboard cases made from 100% recycled material and fully recyclable
- 100% UK manufacture and supply chain
- Technology has no aquatic toxicity
