

Perfection Plus

Your perfect partner
from the UK across the world

Product Catalogue 2025

A global brand, **Perfection Plus** products are available in over 50 countries across the world with continuous expansion of our distribution network.

All our products are manufactured to the highest quality and supported by an established Quality Management System ensuring full compliance to European and UK Medical Device Regulation.

Our goal is to ensure that **Perfection Plus** is your number one choice for quality, value driven products that you and your team can rely on time after time. We pride ourselves on offering personalised, bespoke customer service to maximise all opportunities for growth and expansion in your market.

Our range is continuously developing and expanding to ensure we can meet both your needs today and in the future.

You can count on **Perfection Plus** to be your Perfect Partner!

Contents

Restoratives	3-8
Cements & Liners	9-10
Finishing & Polishing	11
Pins & Posts	11
Impression	12-15
Prevention & Oral Hygiene	16-17
Endodontics	18-22
Infection Control	23-26
Disposables	27-28
Rotary Burs	29-32
Surgical Needles, Syringes and Sutures	33

Perfection Plus Environmental Commitment

Perfection Plus recognises the importance of sustainability and protecting the environment. We are working with all suppliers to ensure the manufacturing processes are sustainable, and the environmental impact is as limited as possible.

As part of this commitment, we use recycled materials in our product packaging wherever possible.

We also ensure that our product packaging is fully recyclable providing that it does not have a detrimental effect on the integrity or quality of the product.

We are currently working towards obtaining external accreditation to ensure we continue to work towards and deliver upon our goals.

RestorePLUS Universal

A high-performance universal hybrid composite with fluoride suitable for both anterior and posterior restorations

- Direct restorations that require optimum aesthetics and bio-compatibility
- Direct cosmetic tooth modifications
- Class III, IV and V cavities
- Restoration of cervical erosion and root caries
- Class I and selective Class II cavities
- Repair of fractured incisal edges
- Laminate veneers
- Core build up

Suitable for:

- Anterior and posterior cavities – Classes I, II, III, IV & V
- Direct laminate veneers
- Core build-ups
- Fractured laminate veneer and porcelain repairs
- Root caries and defects

Technical Data

Flexural Strength	130 MPa
Compressive Strength	330 MPa
Vickers Hardness	62
Wear Resistance	0.52 Weight %
Filler Content	83%
Average Filler Size	0.8µm
Radiopacity	3.4 AI: mm
Containing Fluoride	Yes

RestorePLUS Flowable

An advanced light curing, nano hybrid flowable composite offering superb aesthetics and usability

- Exceptional handling provides control and ease of use combined with high levels of strength for excellent wear resistance and high elasticity for durable, long lasting restorations
- Unlike many flowable composites, RestorePLUS Flow is radiopaque

Suitable for:

- Minimally invasive cavity restorations
- Class III and V anterior restorations involving cervical caries and wedge-shaped defects
- Class I and II posterior
- Deciduous restorations

RestorePLUS Bulk

Polymer based restorative designed for class I and II Posterior restorations

- Outstanding handling characteristics ensure easy placement with excellent aesthetic results. Superior compression strength and low polymerisation shrinkage so less stress on the bond
- Non sticky consistency allows the posterior cavity to be bulk filled without overflowing
- Fast Curing up to 4mm increments
- Low water absorption and solubility ensures durability and colour retention
- High resistance to fracture and abrasion reduces cracks and breaks

Technical Data

Filled by weight (%)	81
Filler particle size (µm)	0.02 - 2.5
Flexural Strength (MPa)	143
Compressive strength (MPa)	335
Water sorption (µg/mm ³)	9.8

RestorePLUS Core Build Up

Dual curing flowable composite with great handling properties and excellent viscosity for placement and stackability

- The highly radiopaque filler content ensures the radiopacity of the final core build and the concentration of nano particles provides exceptional resistance of the final restoration against edge fracture
- Especially useful where the light is difficult to reach as its dual curing properties ensure polymerisation
- Low sorption organic monomers and optimum sizes glass filler particles keep the water sorption of the restoration at lowest possible level

Technical Data

Working time	2.00 mins
Total Self curing time	3.30 mins
Flexural strength (MPa)	135
Compressive strength (MPa)	350
Edge strength (N)	110

Product	Code
5ml Syringe & 5 Mixing Tips	010/1620
25ml Cartridge & 10 Mixing Tips & 10 Intra-oral Tips	010/1621

ConnectED

7th Generation one bottle self-etching Bond

- One step bond requiring no etchant or primer giving a secure bond within a 30 second application time
- Contains dual adhesive monomers which bond with equal strength
- The material is more stable than traditional phosphoric acid and offers an enhanced bond strength
- Low film thickness ensures better adaptation of the composite restoration to the tooth surface
- Excellent biocompatibility and HEMA free

Product	Code
Single Pack (6ml)	010/0122
Triple Pack (3 x 6ml bottles)	010/0121

Connect+

Solvent free 5th Generation Bond

- Easy to use, solvent free, 5th generation bond. No mixing required. Creates strong chemical and mechanical bonds to naturally moist enamel and dentine
- Easily controllable, viscous liquid that offers an excellent, high bond strength to ensure durable, long lasting restorations
- Use with PerfectEtch

Product	Code
5ml Bottle	010/1030

PerfectEtch Green

40% Phosphoric Acid Thixotropic (non-drip)

- Available in 3 presentation sizes

Product	Code
2 x 5ml Syringes & 20 Tips	010/0004

P+ Fill

Anhydrous fast setting Glass Ionomer

- A fast setting anhydrous restorative filling material for superior aesthetics
- Offering high levels of mechanical strength, excellent adhesion and easy to handle
- Indicated for Class III & V cavities with high wear and erosion resistance for durable, superior restorations

10g Powder and water dispenser bottle

Everest

High wear resistance radiopaque posterior Glass Ionomer

- Offering high compressive strength and excellent biocompatibility, combined with ease of use as no need to etch or bond
- The material matches enamel fluorescence and has superb translucency. It can also be used as a pit and fissure sealant or as a base and lining material

15g Powder and 6ml Liquid

RestorePLUS Cavity Liner

Flowable light cure resin-based liner

- Glass reinforced and fluoride releasing
- Suitable as a liner for all filling materials
- Indirect pulp capping
- High flexural and compressive strength

Product	Code
2g syringe x 2m & Tips	010/0027

PerfectaLINE

Radiopaque Calcium Hydroxide Liner

- For capping pulp or providing a protective layer under filling materials and cements
- Self-setting to rigid, solid liner that does not inhibit the polymerisation of acrylic and composite restorations

Product	Code
13g Base, 11g Catalyst & Mixing Pad	010/0025

H2O Cem

Glass Ionomer Luting Cement

- For Crowns, Bridges, Inlays, Onlays and Ortho Bands
- Only minimal cavity preparation required
- Superb translucency for optimum aesthetics
- Contains fluoride
- High compressive strength
- Anhydrous with benefit of mixing and storage

Product	Code
30g Powder	010/1550

Zinc Oxide Eugenol

- A radiopaque cement featuring a reinforced polymer incorporated into the powder
- Suitable as a lining material or as a temporary restorative

BridgelT

Temporary Crown & Bridge Material

- A self-curing material offering excellent aesthetic result combined with optimal mechanical properties making it ideal for provisional restorations
- The formulation ensures low heat generation during the intra oral setting protecting against damaging the pulp
- High flexural strength allows for easy placement and the compressive strength provides exceptional strength and resistance of the final restoration against masticatory forces

Technical Data

Mixing ratio	1:1
Working time	60 seconds
Curing time in mouth	1.00-2.00 mins
Flexural strength (MPa)	95
Compressive strength (MPa)	298

FlexiTemp PLUS

Light Curing Temporary Filling Material

- Quick curing and easily packable consistency combined with high strength and adhesion levels suitable for all temporary fillings
- Easy to remove in one piece
- Red colour for high visibility
- 2x4g syringes

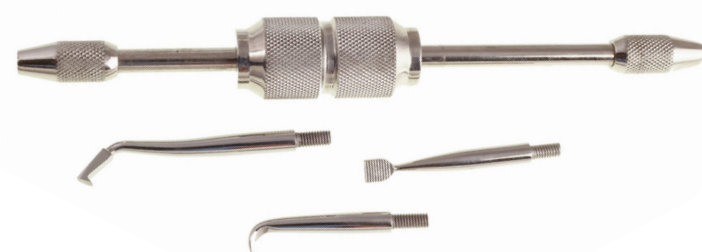

Code
010/1026

Temporary Cavity Filling Material

- Ready to use, high viscosity, radiopaque single paste with excellent marginal adaptation
- Provides an impermeable seal
- Excellent compression resistance
- Maximum setting time of 15 minutes

Protect+ Bio Foam Hand Sanitiser

A naturally derived, alcohol and Quat free foaming hand sanitiser. Highly efficacious, environmentally friendly and kind to skin

- Manufactured using renewable and sustainable technology, the plant based ingredients are bio-renewable
- Fragrance free making it ideal for all health care and food handling environments
- Formulated with an emollient and added Aloe Vera, making the foam gentle on skin and leaving hands hydrated, in contrast to alcohol-based hand gels, which strip the skin of moisture causing dryness and cracking following prolonged use
- Renewable and sustainable manufacturing technology
- Plant derived and carbon neutral
- 100% readily biodegradable, never tested on animals
- Post-consumer recycled bottles
- 100% UK manufacture and supply chain
- Technology has no aquatic toxicity
